

# Teach a face. Unlock with a glance.

A privacy-first face recognition game. Nothing uploads. Nothing stored in the cloud.

## Teach My Face

Enroll in 10 seconds. A 128-dimensional descriptor lives in your browser — never on a server.

## Verify & unlock

Look at the camera, or say “unlock”. Earn XP. Track attempts in the Quest Log.

## No cloud. Ever.

Runs 100% in your browser. No account, no upload, no telemetry. COPPA-friendly by design.
