

Every sensor. Live in every browser.

The browser IS the IDE.

Classroom-ready control panel. 30 laptops. Zero install.

Get started in 60 seconds

- 1 Plug in the micro:bit (USB or battery).
- 2 Open Chrome or Edge on any laptop.
- 3 Visit the URL below — no install.
- 4 Click Connect, pick your board.
- 5 Dot goes green. You're live.

Live sensors

Temperature, sound, light, face tracker, face match — all streaming in real time.

Full control

Paint LEDs, enroll a face, drive motors. Record CSV sessions for lessons.

Live 3D mirror

A photoreal board tilts with your micro:bit. Kids see the physics click.
